Allowable Subject Matter

Claims 15-18, 20-22, 25-27 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant's arguments are convincing, especially the following copied section:

The stapler disclosed by Gifford, includes an arrangement in which the outer tube is threadably advanced over the inner tube in order to advance the staple driver against the legs of the staple. Accordingly, Gifford fails to disclose a stapler including a tubular member, a trigger, and a connecting rod located within the tubular member and extending between the tip section and the trigger. Furthermore, Gifford does not teach, or even suggest, an arrangement in which the connecting rod and the tubular member are slidably operable by the trigger to slide a flange member toward a crimping member thereby deploying the staple.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
